UCSF Health

# Department of Ophthalmology 2020
# Privileges Request Form

I am requesting the specific privileges marked below. I understand that I may request additional privileges, or privileges in another Clinical Department, at any time. I also understand that the granting of these privileges is subject to verification of proficiency by the Chair of the Department, the Credentials Committee of the Medical Staff, and/or any other person or body appropriately designated under the Bylaws, Rules and Regulations of the Medical Staff.

I understand that in an emergency (any situation in which any delay in administering treatment would result in serious harm to the patient or an immediate threat to the life of the patient), I am authorized to treat any medical disease and/or perform any medical or surgical procedure indicated that is within the scope of my license.

Basic Education/Certificates: M.D. or D.O

Minimum Formal Training: Completion of an ACGME/AOA accredited training program in Ophthalmology and or certification or active participation in the examination process (with achievement of certification in accordance with UCSF Medical Staff bylaws) leading to certification in Ophthalmology by the American Board of Ophthalmology, (ABO) OR the American Osteopathic Board of Ophthalmology and Otolaryngology-Head and Neck Surgery, (AOBOO-HNS), OR foreign training and board equivalency.

Renewal Criteria: Practitioners who do not meet the activity levels for maintenance/renewal criteria (such as Courtesy appointee) for particular privileges may submit-from their primary practice location-either;

A.) A peer reference from the service Chief or Chair attesting to clinical competence in the requested privileges, or

B.) Case-logs of clinical activity from their primary practice location.

**CATEGORY 1**
**Core Privileges: Patient management, including H&Ps and diagnostic and therapeutic treatments, procedures and interventions including the areas described below and similar activities:**

| Requested | | Privilege Description | Initial Criteria | Renewal Criteria | Proctoring |
|---|---|---|---|---|---|
| Adult | Pediatric | | | | |
| | | A - Diagnosis, measurement and medical management of disorders and abnormalities affecting the eye, ocular adnexa, visual system and related systems, including administration of topical and local anesthesia<br>• Performance of history and physical exam<br>• Performance and/or interpretation of ophthalmic diagnostics including but not limited to B-mode ultrasound examination, optical biometry, automated and manual perimetry, corneal topography, optical coherence tomography and/or fluorescein angiography. | 2 See Minimum formal training above | 100 H&P completed per year over 2 years | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |
| | | B - Surgical management of disorders and abnormalities affecting the eye, ocular adnexa, visual system and related systems, including administration of topical and local anesthesia (excluding sub-specialty areas described in Category 2)<br><br>• Incision and drainage of chalazion or eyelid abscess; removal of minor periocular and eyelid lesions with or without repair | 2 See Minimum formal training above | 10 conjunctival surgeries or 10 cataract surgeries or 10 intravitreal injections or 10 | (5) encounters with satisfactory outcomes for each |

| | | | | | |
|---|---|---|---|---|---|
| | | • Eyelid laceration repair; probing and repair of lacrimal apparatus with or without intubation; enucleation and evisceration with or without implant<br>• Primary entropion/ectropion repair; temporal artery biopsy; canthotomy/cantholysis; tarsorrhaphy; upper eyelid blepharoplasty; facial neurotoxin (chemodenervation) and dermal filler injection<br>• Conjunctival surgery, including grafts, flaps, pterygium, and pinguecula<br>• Horizontal strabismus surgery<br>• Corneal surgery, including traumatic repair (excluding refractive surgery, keratoplasty and keratotomy)<br>• Cataract surgery (intra- and extracapsular cataract extraction with or without lens implant or phacoemulsification)<br>• Intraocular lens exchange; secondary intraocular lens placement<br>• Anterior limbal approach automated vitrectomy<br>• Primary trabeculectomy surgery and minimally invasive glaucoma surgical device placement<br>• Removal of anterior and/or posterior segment foreign body<br>• Injection of intravitreal medications<br>• Retrobulbar or peribulbar injections for medical delivery or chemical denervation for pain control<br>• Laser treatment for peripheral iridotomy, trabeculoplasty, pupilo-gonioplasty, transscleral cyclophotocoagulation, suture lysis, capsulotomy, retinopexy, panretinal photocoagulation, macular photocoagulation | | therapeutic laser procedures or 10 eyelid surgeries | requested procedure must be submitted to complete proctoring |

**CATEGORY 2**
**Subspecialty Privileges: Patient management at this level encompasses Category 1 patient management, the items marked below and similar activities.**

| Requested | | Privilege Description | Initial Criteria | Renewal Criteria | Proctoring |
|---|---|---|---|---|---|
| Adult | Pediatric | | | | |
| | | A - Cornea and External Disease: Ocular surface tumor treatment; limbal stem cell surgery; superficial and mid stromal lamellar keratoplasty; deep lamellar keratoplasty; endothelial keratoplasty; penetrating keratoplasty; phototherapeutic keratectomy; corneal cross-linking | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |
| | | A1 - Pars plana vitrectomy without the use of a posterior segment visualization system | 2 Provider will need their overall surgical experience evaluated by the Retina service medical director for consideration of the | A minimum of 3 cases per year at UCSF Medical Center over the past two years consistent with the requested | (5) encounters with satisfactory outcomes for each requested |

| | | | | | |
|---|---|---|---|---|---|
| | | | privilege. | privilege. | procedure must be submitted to complete proctoring |
| | | B - Glaucoma: Primary and secondary trabeculectomy, trabeculotomy, goniotomy, tube shunt placement and MIGS with/without intra-operative and/or post-operative antimetabolite therapy; endocyclophotocoagulation | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (3) videos for review by the Retina service medical director to complete proctoring |
| | | C1 - Neuro-Ophthalmology: Admit, evaluate, diagnose, treat, and provide consultation, order diagnostic studies and procedures and perform non□surgical procedures on patients of all ages, with visual problems of the eye, brain, nerves, and muscles i.e., neurological conditions that affect the<br>areas of the brain devoted to vision.<br><br>May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. | 2 Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency in neurology or ophthalmology AND Current certification or board eligibility (with achievement of certification in accordance with UCSF Medical Staff bylaws) leading to certification in neurology by the American Board of Psychiatry and Neurology OR the American Osteopathic Board of Neurology and Psychiatry OR in ophthalmology by the American Board | A minimum of 10 adult or 5 pediatric cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |

| | | | | | |
|---|---|---|---|---|---|
| | | | of Ophthalmology or the American Osteopathic Board of Ophthalmology and Otolaryngology – Head and Neck Surgery OR approved foreign equivalent. | | |
| | | C2 - Neuro-Ophthalmology<br>Including but not limited to: Temporal artery biopsy; lumbar puncture; chemodenervation of the facial nerve | 2 Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency in neurology or ophthalmology followed by a fellowship in neuro-ophthalmology or the equivalent in training and experience AND Current certification or board eligibility (with achievement of certification in accordance with UCSF Medical Staff bylaws) leading to certification in neurology by the American Board of Psychiatry and Neurology OR the American Osteopathic Board of Neurology and Psychiatry OR in ophthalmology by the American Board of Ophthalmology OR the American Osteopathic Board of Ophthalmology and Otolaryngology – Head and Neck Surgery OR approved foreign | A minimum of 10 adult cases and 5 pediatric cases per year at UCSF Medical Center over the past two years consistent with the requested privileges. | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |

| | | | | | |
|---|---|---|---|---|---|
| | | | equivalent. | | |
| | | D - Oculofacial Plastic: Secondary/revision eyelid surgery; ptosis repair; complex eyelid/orbital/periorbital reconstruction; external and endoscopic dacryocystorhinostomy/conjunctivodacryocystorhinostomy; orbital surgery; orbital exenteration, anophthalmic socket surgery; corneal neurotization; optic nerve sheath fenestration; application of chemical peels and lasers; aesthetic surgery of the lids and periocular area; Surgical management of complicated tumors of lids and adnexa; Reconstructive upper face (brow) and mid-face/cheek surgery including tissue advancements, grafts, flap rotation and rhytidectomy; frontalis sling/frontalis flap surgery; balloon dacryoplasty | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges Proctoring:(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |
| | | E - Oncology: Ocular surface tumor treatment; plaque radiotherapy; proton radiotherapy; intrathecal chemotherapy; laser tumor ablation; enucleation | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |
| | | F - Pediatric: Removal of periocular neoplasms, frontalis sling placement; probing and irrigation with/without stent placement; balloon dacryoplasty; corneal cross-linking; pars plana vitrectomy in the setting of cataract surgery | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges Proctoring:(5) encounters with satisfactory outcomes for each requested procedure must | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |

| | | | | | |
|---|---|---|---|---|---|
| | | | completion of Fellowship in an Ophthalmologic sub-specialty. | be submitted to complete proctoring | |
| | | G - Refractive Surgery: LASIK and PRK; phakic intraocular lens placement | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |
| | | H - Retina: Pars plana vitrectomy, retinal detachment repair; macular hole repair; epiretinal membrane peel | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |
| | | I - Strabismus: Complex strabismus surgery; chemodenervation of the extraocular muscle(s) | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete |

| | | | | | |
|---|---|---|---|---|---|
| | | | management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | | proctoring |
| | | J - Uveitis: Administration of immunosuppressive therapy | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |
| | | K - Ophthalmic Pathology: Review of ocular biopsies and specimens that include enucleated eyes, exenterated orbits, eyelids, lacrimal sac, lacrimal gland, orbital tissue, conjunctiva, cornea, intraocular biopsies and cytology | 2 Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty. | A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges | (5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring |

**ADMITTING SERVICES (I expect to admit and care for patients under my own name on the following inpatient services)**

| Requested | Privilege Description | Initial Criteria | Renewal Criteria | Proctoring |
|---|---|---|---|---|
| | OP - Ophthalmology | N/A | Admitting activity of at least 5 patients at UCSF Medical Center in | N/A |

| | | | | |
|---|---|---|---|---|
| | | | the past two years, or attestation of need from service Chief/Chair. Proctoring: N/A | |
