

Department of Ophthalmology 2020 Privileges Request Form

I am requesting the specific privileges marked below. I understand that I may request additional privileges, or privileges in another Clinical Department, at any time. I also understand that the granting of these privileges is subject to verification of proficiency by the Chair of the Department, the Credentials Committee of the Medical Staff, and/or any other person or body appropriately designated under the Bylaws, Rules and Regulations of the Medical Staff.

I understand that in an emergency (any situation in which any delay in administering treatment would result in serious harm to the patient or an immediate threat to the life of the patient), I am authorized to treat any medical disease and/or perform any medical or surgical procedure indicated that is within the scope of my license.

Basic Education/Certificates: M.D. or D.O

Minimum Formal Training: Completion of an ACGME/AOA accredited training program in Ophthalmology and or certification or active participation in the examination process (with achievement of certification in accordance with UCSF Medical Staff bylaws) leading to certification in Ophthalmology by the American Board of Ophthalmology, (ABO) OR the American Osteopathic Board of Ophthalmology and Otolaryngology-Head and Neck Surgery, (AOBOO-HNS), OR foreign training and board equivalency.

Renewal Criteria: Practitioners who do not meet the activity levels for maintenance/renewal criteria (such as Courtesy appointee) for particular privileges may submit-from their primary practice location-either;

A.) A peer reference from the service Chief or Chair attesting to clinical competence in the requested privileges, or

B.) Case-logs of clinical activity from their primary practice location.

CATEGORY 1

Core Privileges: Patient management, including H&Ps and diagnostic and therapeutic treatments, procedures and interventions including the areas described below and similar activities:

Requested		Privilege Description	Initial Criteria	Renewal Criteria	Proctoring
Adult	Pediatric				
		A - Diagnosis, measurement and medical management of disorders and abnormalities affecting the eye, ocular adnexa, visual system and related systems, including administration of topical and local anesthesia <ul style="list-style-type: none"> • Performance of history and physical exam • Performance and/or interpretation of ophthalmic diagnostics including but not limited to B-mode ultrasound examination, optical biometry, automated and manual perimetry, corneal topography, optical coherence tomography and/or fluorescein angiography. 	See Minimum formal training above	100 H&P completed per year over 2 years	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
		B - Surgical management of disorders and abnormalities affecting the eye, ocular adnexa, visual system and related systems, including administration of topical and local anesthesia (excluding sub-specialty areas described in Category 2) <ul style="list-style-type: none"> • Incision and drainage of chalazion, removal of minor periocular and eyelid lesions and repair of eyelid lacerations 	See Minimum formal training above	10 conjunctival surgeries or 10 cataract surgeries or 10 intravitreal injections or 10	(5) encounters with satisfactory outcomes for each

		<ul style="list-style-type: none"> • Probing and irrigation of nasolacrimal drainage system • Conjunctival surgery, including grafts, flaps, pterygium, and pinguecula • Horizontal strabismus surgery • Corneal surgery, including traumatic repair (excluding refractive surgery, keratoplasty and keratotomy) • Cataract surgery (intra- and extracapsular cataract extraction with or without lens implant or phacoemulsification) • Intraocular lens exchange; secondary intraocular lens placement • Anterior limbal approach automated vitrectomy • Primary trabeculectomy surgery and minimally invasive glaucoma surgical device placement • Removal of anterior and/or posterior segment foreign body • Injection of intravitreal medications • Retrobulbar or peribulbar injections for medical delivery or chemical denervation for pain control • Laser treatment for peripheral iridotomy, trabeculoplasty, pupilo-gonioplasty, transscleral cyclophotocoagulation, suture lysis, capsulotomy, retinopexy, panretinal photocoagulation, macular photocoagulation 		therapeutic laser procedures or 10 eyelid surgeries	requested procedure must be submitted to complete proctoring

CATEGORY 2

Subspecialty Privileges: Patient management at this level encompasses Category 1 patient management, the items marked below and similar activities.

Requested		Privilege Description	Initial Criteria	Renewal Criteria	Proctoring
Adult	Pediatric				
		A - Cornea and External Disease: Ocular surface tumor treatment; limbal stem cell surgery; superficial and mid stromal lamellar keratoplasty; deep lamellar keratoplasty; endothelial keratoplasty; penetrating keratoplasty; phototherapeutic keratectomy; corneal cross-linking	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
		A1 - Pars plana vitrectomy without the use of a posterior segment visualization system	Provider will need their overall surgical experience	A minimum of 3 cases per year at UCSF Medical Center over the	(5) encounters with satisfactory

			evaluated by the Retina service medical director for consideration of the privilege.	past two years consistent with the requested privilege.	outcomes for each requested procedure must be submitted to complete proctoring
		B - Glaucoma: Primary and secondary trabeculectomy, trabeculotomy, goniotomy, tube shunt placement and MIGS with/without intra-operative and/or post-operative antimetabolite therapy; endocyclophotocoagulation	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges	(3) videos for review by the Retina service medical director to complete proctoring
		C - Neuro-Ophthalmology: Temporal artery biopsy; lumbar puncture; chemodenervation of the facial nerve	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

			of Fellowship in an Ophthalmologic sub-specialty.		
		D - Oculofacial Plastic: Eyelid and ocular adnexal surgery; external and endoscopic nasolacrimal surgery; orbital surgery; enucleation/evisceration/exenteration surgery; anophthalmic socket surgery; temporal artery biopsy; chemodenervation of the facial nerve; injection of soft tissue fillers; application of chemical peels and lasers; aesthetic surgery of the lids and periocular area	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges Proctoring:(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
		E - Oncology: Ocular surface tumor treatment; plaque radiotherapy; proton radiotherapy; intrathecal chemotherapy; laser tumor ablation; enucleation	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

		F - Pediatric: Removal of periocular neoplasms, frontalis sling placement; probing and irrigation with/without stent placement; balloon dacryoplasty; corneal cross-linking; pars plana vitrectomy in the setting of cataract surgery	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges Proctoring:(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
		G - Refractive Surgery: LASIK and PRK; phakic intraocular lens placement	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
		H - Retina: Pars plana vitrectomy, retinal detachment repair; macular hole repair; epiretinal membrane peel	Requiring a level of training, skill	A minimum of 20 cases per year at UCSF Medical	(5) encounters with

			and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	Center over the past two years consistent with the requested privileges	satisfactory outcomes for each requested procedure must be submitted to complete proctoring
		I - Strabismus: Complex strabismus surgery; chemodeneration of the extraocular muscle(s)	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
		J - Uveitis: Administration of immunosuppressive therapy	Requiring a level of training, skill and ability generally associated with Diplomates of	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested	(5) encounters with satisfactory outcomes for each requested

			the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	privileges	procedure must be submitted to complete proctoring
		K - Ophthalmic Pathology: Review of ocular biopsies and specimens that include enucleated eyes, exenterated orbits, eyelids, lacrimal sac, lacrimal gland, orbital tissue, conjunctiva, cornea, intraocular biopsies and cytology	Requiring a level of training, skill and ability generally associated with Diplomates of the American Board of Ophthalmology and having had additional training and/or experience in specific patient management problems typically demonstrated by completion of Fellowship in an Ophthalmologic sub-specialty.	A minimum of 20 cases per year at UCSF Medical Center over the past two years consistent with the requested privileges	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

ADMITTING SERVICES (I expect to admit and care for patients under my own name on the following inpatient services)

Requested	Privilege Description	Initial Criteria	Renewal Criteria	Proctoring
	OP - Ophthalmology	N/A	Admitting activity of at least 5 patients at UCSF Medical Center in the past two years, or	N/A

		attestation of need from service Chief/Chair. Proctoring: N/A
