

Department of Medicine - Hospital Medicine 2020 Privileges Request Form

I am requesting the specific privileges marked below. I understand that I may request additional privileges, or privileges in another Clinical Department, at any time. I also understand that the granting of these privileges is subject to verification of proficiency by the Chair of the Department, the Credentials Committee of the Medical Staff, and/or any other person or body appropriately designated under the Bylaws, Rules and Regulations of the Medical Staff.

I understand that in an emergency (any situation in which any delay in administering treatment would result in serious harm to the patient or an immediate threat to the life of the patient), I am authorized to treat any medical disease and/or perform any medical or surgical procedure indicated that is within the scope of my license.

Minimal formal training: Successful completion of an ACGME- or AOA accredited residency in internal medicine, and/or current certification or active participation in the examination process (with achievement of certification in accordance with UCSF Medical Staff Bylaws) leading to certification in internal medicine by the ABIM or AOBIM, or foreign training and board equivalency.

Renewal Criteria: Practitioners who do not meet the activity levels for maintenance/renewal criteria (such as Courtesy appointee) for particular privileges may submit – from their primary practice location—either;

- A.) A peer reference from the service Chief or Chair attesting to clinical competence in the requested privileges, or
- B.) Case-logs of clinical activity from their primary practice location.

CATEGORY 1 Core Privileges

Requested	Privilege Description	Initial Criteria	Renewal Criteria	Proctoring
	A - Core privileges for internal medicine include the ability to admit, evaluate, diagnose, treat and provide consultation to adolescent and adult patients with common and complex illnesses, diseases, and functional disorders of the circulatory, respiratory, endocrine, metabolic, musculoskeletal, hematopoietic, gastroenteric, and genitourinary systems. Internists may provide care to patients in the intensive care setting in conformance with unit policies. They also should be able to assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the procedures list below and such other procedures that are extensions of the same techniques and skills: Performance of history and physical exam	Provision of care to at least 50 patient encounters, reflective of the scope of privileges requested, in the past 12 months or successful completion of an ACGME- or AOA-accredited residency or clinical fellowship within the past 12 months	Reappointment should be based on unbiased, objective results of care according to a hospital's quality assurance mechanism. To be eligible to renew privileges in internal medicine, the applicant must have current demonstrated competence and an adequate volume of experience 50 patient encounters with acceptable results, reflective of the scope of privileges	(10) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

		requested, for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current physical and mental ability to perform privileges required of all applicants for renewal of privileges. In addition, continuing education related to internal medicine should be required	
B - Abdominal Paracentesis	Case logs documenting 5 procedures with acceptable results for each procedural privilege requested	Maintenance of these procedural privileges requires demonstrated competence of at least 5 procedures with acceptable results within the past 24 months, based on results of ongoing professional practice evaluation and outcomes or case logs.	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
C - Drawing of Arterial Blood	Case logs documenting 5	Maintenance of these procedural	(5) encounters

		procedures with acceptable results for each procedural privilege requested	privileges requires demonstrated competence of at least 5 procedures with acceptable results within the past 24 months, based on results of ongoing professional practice evaluation and outcomes or case logs.	with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
	D - Insertion Arterial Blood	Case logs documenting 5 procedures with acceptable results for each procedural privilege requested	Maintenance of these procedural privileges requires demonstrated competence of at least 5 procedures with acceptable results within the past 24 months, based on results of ongoing professional practice evaluation and outcomes or case logs.	encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
	E - Nasogastric Intubation	Case logs documenting 5 procedures with acceptable results for each procedural privilege requested	Maintenance of these procedural privileges requires demonstrated competence of at least 5 procedures with acceptable results within the past 24 months, based on results	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

			of ongoing professional practice evaluation and outcomes or case logs.	
F	- Thoracentesis	Case logs documenting 5 procedures with acceptable results for each procedural privilege requested	Maintenance of these procedural privileges requires demonstrated competence of at least 5 procedures with acceptable results within the past 24 months, based on results of ongoing professional practice evaluation and outcomes or case logs.	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring
G		Case logs documenting 5 procedures with acceptable results for each procedural privilege requested	Maintenance of these procedural privileges requires demonstrated competence of at least 5 procedures with acceptable results within the past 24 months, based on results of ongoing professional practice evaluation and outcomes or case logs.	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

F - Central Line Placement & Removal		
F - Central Line Placement & Removal	Documented Completion of the Central Venous Catheter Procedure Education and Training Module via the UCSF Learning Center AND Documentation of at least one of the following: 1. Board Eligibility/Board Certification in specialties that include CVC Insertion and/or removal procedure as part of the basic delineated competencies (ie.
