

## Department of Radiation Oncology 2021 Privileges Request Form

I am requesting the specific privileges marked below. I understand that I may request additional privileges, or privileges in another Clinical Department, at any time. I also understand that the granting of these privileges is subject to verification of proficiency by the Chair of the Department, the Credentials Committee of the Medical Staff, and/or any other person or body appropriately designated under the Bylaws, Rules and Regulations of the Medical Staff. I understand that in an emergency (any situation in which any delay in administering treatment would result in serious harm to the patient or an immediate threat to the life of the patient), I am authorized to treat any medical disease and/or perform any medical or surgical procedure indicated that is within the scope of my license.

Basic Education/Certificates: M.D. or D.O or foreign equivalent

Minimum Formal Training: Completion of an ACGME/AOA accredited training program in Radiation Oncology and or certification or active participation in the examination process (with achievement of certification in accordance with UCSF Medical Staff bylaws) leading to certification in Radiation Oncology, or foreign training and board equivalency.

Renewal Criteria: Practitioners who do not meet the activity levels for maintenance/renewal criteria (such as Courtesy appointee) for particular privileges may submit – from their primary practice location—either;

- A.) A peer reference from the service Chief or Chair attesting to clinical competence in the requested privileges, or
- B.) Case-logs of clinical activity from their primary practice location.

### CATEGORY 1

**Radiation Oncology Privileges Standard diagnostic evaluation and management of patients undergoing radiotherapy; administration of external beam radiotherapy with orthovoltage or megavoltage equipment, the prescription of medication related to cancer care and routine follow-up examinations including surveillance nasopharyngoscopy and pelvic examinations**

Requested	Privilege Description	Initial Criteria	Renewal Criteria	Proctoring
	<p>A - Core Privileges</p> <ul style="list-style-type: none"> <li>• Administration of drugs and medicines related to radiation oncology and cancer supportive care</li> <li>• Administration of radiosensitizers and radioprotectors under appropriate circumstances</li> <li>• Combined modality therapy (e.g. surgery radiation therapy, chemotherapy, or immunotherapy administered concurrently or in a timed sequence)</li> <li>• Computer-assisted treatment simulation and planning (external beam therapy and radioactive implants)</li> <li>• Fractionated stereotactic radiotherapy</li> <li>• Immunotherapy applications</li> <li>• Interpretation of studies and their application to clinical medicine as they pertain to neoplastic or benign conditions</li> <li>• Prescription of radiation doses, treatment volumes, field bloc, molds, and other special devices for external beam therapy</li> <li>• Radiation therapy by external beam (photon and electron irradiation)</li> <li>• Radiation therapy and contact therapy (strategic radiology, molds, etc.)</li> <li>• Stereotactic radiosurgery (determine core or noncore)</li> <li>• Total body irradiation</li> <li>• X-ray, ultrasound, CT, MRI, and PET, and assisted treatment planning</li> </ul>	See minimum formal training above.	<p>Having Completed 15 CME credits focusing on Radiation Therapy every 2 years and, Board Certified and/or Eligible in Radiation Oncology through American Board of Radiology*</p> <p>And</p> <p>10 encounters with satisfactory outcomes (per</p>	(10) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

			previous OPPE cycle) for each requested procedure must be submitted to complete proctoring

**CATEGORY 3  
Special Radiation Oncology Privileges**

Requested	Privilege Description	Initial Criteria	Renewal Criteria	Proctoring
	A - GYN Brachytherapy and associated Image guided procedures (fluoroscopy, ultrasonography, cystoscopy, proctosigmoidoscopy)	Sufficient training during residency training and in practice- must submit log documentation. Without log, must have been proctored in the past for a minimum of five (5) cases at UCSF.	1.) Category 1 maintenance criteria required 2.) For each privilege line item, practitioner must be responsible for at least ten (10) cases in the past 24 months. If not, additional proctoring of at least three (3) cases is required. (Under certain circumstances, the Department Chair may waive maintenance criteria).	(5) encounters with satisfactory outcomes for each requested procedure must be submitted to complete proctoring

<p>B - GU temporary brachytherapy and associated Image guided procedures (fluoroscopy, ultrasonography, proctosigmoidoscopy)</p>	<p>Sufficient training during residency training and in practice- must submit log documentation. Without log, must have been proctored in the past for a minimum of five (5) cases at UCSF.</p>	<p>1.) Category 1 maintenance criteria required 2.)
